

Project 2:

Name: Wycliffe Obuya

Rubric:

Git Repository:

- https://github.com/aobuya/Udagram_filter_image

Endpoint URL:

- Udagram-imagefilter-dev.us-east-1.elasticbeanstalk.com

Screenshot of Deployment Dashboard:

Image: Environments

The screenshot displays the AWS Elastic Beanstalk console. The left sidebar shows the 'Environments' tab selected. The main content area, titled 'All environments', contains a table with one environment listed. The environment is named 'Udagram-imagefilter-dev', has a health status of 'OK', and is running version 'app-4932-220825_195322547647' on the 'Node.js 16' platform. The URL for the environment is 'Udagram-imagefilter-dev.us-east-1.elasticbeanstalk.com'.

Environment name	Health	Application name	Date created	Last modified	URL	Running versions	Platform
Udagram-imagefilter-dev	OK	Udagram-imagefilter	2022-08-25 19:40:58 UTC+0300	2022-08-25 19:53:53 UTC+0300	Udagram-imagefilter-dev.us-east-1.elasticbeanstalk.com	app-4932-220825_195322547647	Node.js 16 running on 64bit Amazon Linux 2
